

Andrii Serputko

Full Stack Engineer | Technical Lead

Warsaw, English (B2), Ukrainian (Native)

Summary

Experienced **Full Stack Engineer** with **15+ years** in architecture, full-stack development, and leading cross-functional teams to deliver scalable, high-performance web applications. Proficient in **React**, **NodeJS**, and **AWS services**. Skilled in designing and implementing **microservices** and **serverless architectures**, with strong expertise in **UI/UX**, **cloud scalability**, and **DevOps practices**. Adept at mentoring engineers, optimizing performance, and aligning technology solutions with business goals.

Technical Skills

Frontend:	React, Angular, Typescript, Tailwind CSS, Bootstrap
Backend:	NodeJS, NestJS
Cloud:	AWS, Azure DevOps
DevOps:	Docker, Kubernetes, GitHub Actions, Jenkins, CI/CD pipelines, Azure DevOps
Databases:	PostgreSQL, MongoDB
Architecture:	Microservices, RESTful APIs, GraphQL, WebSocket
Testing:	Jest, Cypress, Vitest, UI/API/E2E testing
Tools:	Jira, Scrum, Scaled Agile, Figma

Professional Experience

EPAM Systems

Technical Lead | Full Stack Engineer

Warsaw, Poland | Jun 2021 – Present

- Led architecture and implementation of scalable React applications.
- Designed and maintained microservices-based architectures with focus on performance, scalability, and security.
- Mentored engineers, conducted code reviews, and enforced coding standards.
- Collaborated with design and product teams to deliver user-centered, accessible interfaces.
- Automated CI/CD pipelines with Azure DevOps and integrated comprehensive testing practices.

SAP

Technical Lead | Full Stack Engineer

Berlin, Germany | May 2018 – Jun 2021

- Built cloud-native enterprise applications using React and backend services, enabling workflow automation for non-technical users.
- Integrated AWS cloud services to ensure high availability and security.
- Improved application performance via caching strategies and database optimization.

Luxoft

Senior Software Engineer

Dnipro, Ukraine | Dec 2013 – May 2018

- Developed analytics and fund management tools, focusing on RESTful APIs and high-quality UX.

- Implemented automated testing pipelines for frontend and backend components.

SoftServe

Software Engineer

Dnipro, Ukraine | Jan 2011 – Dec 2013

- Built healthcare and education tools with scalable backends and user-friendly interfaces.
- Participated in Agile development and contributed to architecture design and performance improvements.

Education

Bachelor in Telecommunications

Dnipropetrovsk National University, Ukraine | 2005 – 2010
